

# Guts

## Budgie

You've got me living in sin  
you've got me breaking my heart  
You've got me out on a limb  
And I am falling apart  
The sun is burning my face  
My insides running a race  
I need somebody with soul  
you are my life and my goal  
I need your love, love  
I want somebody who's good  
I need somebody who's right  
I need a lover who will  
Not a lover who might  
I wanna love you again  
And then again and again  
I'm gonna empty you out  
I wanna be with you now  
I want your love, love Love, love me yes  
Yeah you'd better love me  
You'd better love me yes  
Yeah love, you'd better love me Love, love me yes  
Yeah you'd better love me  
Lord you've gotta help me  
Love me yeah, you love me yes  
Lord, you love me yeah  
You've got me living in sin  
You know what to do  
You've got me out on a limb  
I feel it coming in two
