

# Favorite (feat. Jeremih)

Nicki Minaj

I don't want no drama  
I just wanna be your diamond, babe  
Guaranteed to be a problem  
Every time I get around you, babe  
I just want you to need me  
You might really wanna try me, babe  
All I know I want a rider  
All I know I want a rider, babe  
You know that you need a rider  
You know that you need a rider, babe  
You know that you need a rider  
You know that you need a rider, babe, ah yeah...  
Yo, I just wanna be ya rider  
You should pull up in that Spider  
You should let me hit the mic  
And I ain't talking about the fighter  
Get it lit without a lighter  
Let's pull an all-nighter  
Tell me-tell me what you need, got the weed  
I'm a bad lil bitch and I never indict her  
Get locked, I'mma write ya  
You on the road? I'mma Skype ya  
I don't wanna hype ya  
But you a lucky nigga if my mean ass like ya  
You ain't never have a bitch understand you  
Most of them wanna use you when they ran through  
I just wanna be somebody, that can add to  
Your wife, be a friend, be a teacher and a fan too  
I just wanna listen  
When you leave I say "damn, I fucking miss him"  
I just wanna be your vixen  
Give you something real wet, to put your lips in  
I wanna be the only one that can check you, and still respect you  
Cause it's you I would change for, you always make sure  
I just wanna be your favorite  
I just wanna be your favorite  
I just wanna be your favorite  
I just wanna be your favorite  
Won't you let me be your favorite? Ayo, I just wanna be your first go to  
Treat me like a real one s'posed to, livin' bi-coastal  
Scoop me in the truck, late night, wanna humble  
Meet me out in Queens, where the city want a sundown

You could put your gun down, you could have fun now  
You could tell you niggas that you won now, one down  
Run through the clubs with the baddest  
Bitches is the maddest, nothin' else matters  
And they say Berkin where the bag is  
Gotta lot of bags, but we never got baggage  
Went to Wonderland on my hands, call me Alice, balance  
I'mma have you coming in my palace  
London, Tokyo, Paris, let me update your status  
Cause it's you I would change for, you always make sure I just wanna be your favorite  
I just wanna be your favorite  
I just wanna be your favorite  
I just wanna be your favorite  
Won't you let me be your favorite? You should already know  
You should already know  
You should already know  
You should already know  
(You know that you need a rider  
You know that you need a ride, babe  
You know that you need a rider  
You know that you need a rider, babe, ayy  
I just wanna be your favorite  
I just wanna be your favorite)  
You should already know, you should already know  
(I just wanna be your favorite)  
You should already know, you should already know  
(I just wanna be your favorite)
