

I Need Love

Blanco Brown

As I walk through the cornfield
Alone, full of emptiness
As I look to my left and my right
There's no one there to hold my hand
As my nerves get to shakin'
And my voice gets to tremblin'
Just keep goin', yeah
I'll keep goin' On the ledge
I take in all of the fresh air
On my way down a million miles away
I met an angel
And she told me everything'll be okay
That's when I woke up, baby
Show me love, show me love, show me love (show me)
Girl I love, girl I love you more than I love myself
Honey, love, I need love, oh, I need love
We all know that a drink can't heal my heart
That's why I need you by my side
I need love When the wind starts to spin
And the sky starts fallin' in
When the earth starts to bend
In a series of strange events
When my knees get to bucklin'
And my heart shows you nothin'
Just start prayin' for me
Just start prayin'
On the ledge
I take in all of the fresh air
On my way down a million miles away
I met an angel
And she told me everything'll be okay
That's when I woke up, baby Show me love, show me love, show me love (show me)
Girl I love, girl I love you more than I love myself
I need love, I need love, oh, I need love
We all know that a drink won't heal my heart
That's why I need you by my side
I need love Don't wanna die with a
I don't wanna die with a broken heart
