

# The Distance (feat. Ty Dolla \$ign)

[Mariah Carey](#)

S-P-I-R-I-T, it's great to see  
We got it, the spirit  
Hey, hey, let's hear it Ain't nobody stopping us  
What we have is dangerous  
Left they opinions in the dust  
Said can't nobody fuck with us  
They'll never find a way to make us fade away  
Our love won't fade away (no)  
They'll never find a way to make us fade away  
Our love won't fade away Warm days, cold nights, late October  
Separated, people saying what we have is over  
But the hate only made us get closer (close!)  
And closer  
Said we couldn't go the distance, yeah  
Look at us, we're going the distance  
They just wanna be us  
They don't wanna see us going the distance (yeah!)  
For laughs, for laughs, la di da  
Said we couldn't go the distance  
For life, for life, la di da  
Look at us, we're going the distance  
The distance, oh There was no good, having hands up  
Trying to diminish me  
Boy we stayed up, camping out crowds  
In spite of them difficulties  
But they can't, but they can't, but they can't  
Take away them precious memories (yeah!)  
And I won't, and I won't, and I won't  
Let 'em come between you and me (woo!)  
Warm days, cold nights, late October  
Separated, people saying what we have was over  
But the hate, only made us get closer, (close!)  
And closer Said we couldn't go the distance, ah  
Look at us, we're going the distance (they)  
They just wanna be us  
They don't wanna see us going the distance (yeah!)  
For laughs, for laughs la di da  
Said we couldn't go the distance  
For life, for life, la di da  
Look at us, we're going the distance We've been goin' all the way, ay  
For the longest (ooh yeah)  
We're too strong (too strong)!

We're too silent (ooh yeah)  
They can't stop it now (ooh)  
We in Prada now (ooh)  
Fuck all their comments (fuck all their comments)  
They be so toxic (they be so toxic)  
We be kissing in public  
You like it, I love it  
You with it, I'm with it  
We going the distance Said we couldn't go the distance, yeah yeah (oh oh)  
Look at us we're going the distance, yeah  
They just wanna be us  
They don't wanna see us going the distance (yeah!)  
For laughs, for laughs, la di da  
They said we couldn't go the distance  
For life, for life, la di da (for life, for life) (ooh yeah)  
Look at us, we're going the distance S-P-I-R-I-T, it's great to see  
We got it, the spirit  
Hey, hey, let's hear it
