

Ghost (Fred Falke Remix)

Mystery Skulls

Cause the world might do me in
It's all right cause I'm with friends
Cause I'm giving up again
It doesn't matter And I'm feeling like a ghost
And it's what I hate the most
Cause I'm giving up again
And this time (this time, this time) This time I might just disappear
This time I might just disappear
This time I might just disappear
This time I might just disappear Try and hear me then I'm done
Cause I might just say this once
Seen this played out in my dream
It doesn't matter
Time for givin' up the ghost
Fuck it's you I hate the most
And there is no guarantee
It doesn't matter
This time I might just disappear
This time I might just disappear
This time I might just disappear
This time I might just disappear
