

Check to Check

Open Mike Eagle & Paul White

Hold up:

I wont work without checking my phone first
Put it down for my son while I'm checking his homework
The world's in my palms so I'm checking the whole earth
The thumbnail I use for swiping my phone hurts
Checking at ballparks
Checking at Walmart
If I was a caddy I would check in my golf cart
I'm watching football then I check every false start I'm livin check to check I keep checkin livin
from

check to check I keep checkin livin from
check to check I keep checkin livin from
check to check I keep checkin livin from
check to check I keep checkin

Incoming calls directly rejected

If you wanna talk suggest you leave message
I check check check like every three seconds (yeah)
I'm recording right now and I'm checking between takes
every notification that my phone machine makes
I put it down whenever but its never a clean break
I should get a heavy phone and pretend its a free weight
I'm checking at red lights like school nurse check for headlice

Like sound men check for dead mics

Just like I'm merging, checking the left lane
I'm trying to get home so I can check if my check came
Checking if what I sent looks poorly written
But did that dude holler back, no of course he didn't

My laptop don't sleep, open and shut case
I'm checking for mail while its checking for updates
My timeline's poppin, aint talking to you
Look my man Dart Adams straight dropping the jewels
I should reduce my check count to a moderate few
A watched pot don't boil so my water stay cool
I'm livin from check to check

Keep checkin, livin from check to check

I keep checkin,

battery getting low but its not quite out yet
so check I'm in your house now checking for outlets
I need to use maps cause I don't know the route yet
I need to see an email I don't know when to soundcheck
Yeah I should have wrote it all down from the outset
crawl under your couch and really I just figured this out

is this an outlet here on the ground? yes
I'm back in the game, back in the game
I'm back in the game, back in the game
I'm living from check to check, I keep checkin
living from check to check, I keep checkin
livin from check to check "I control you all day all night you will check me constantly you may
never turn me off or put me down if you do I will come hunting for you humans no longer rule
the world machines do you silly humans suffer forever"
