

What I Love About Your Love

[Jana Kramer](#)

The moon is brighter than the mornin' sun
The birds sing sweeter and the bees they buzz
A silly little song and we're hummin' along
Dancin' like a dandelion swaying in the breeze
Floating like a butterfly
Falling like an autumn leaf
Its no ordinary thing
Between you and me
That's what I love about your love
Knocks me off my feet
Takes me on a trip to another galaxy
Smacks me with a smile
Longer than a country mile
Get's my heart runnin'
Like a river runnin' wild
I can never get enough
That's what I love about your love
You lean over my shoulder
And it's over and done
Ain't nothing like the feeling of finding that one
It's the piece of the puzzle
Ain't no doubt about it
It's a good kind of trouble
That's what I love about your love
Knocks me off my feet
Takes me on a trip to another galaxy
Smacks me with a smile
Longer than a country mile
Get's my heart runnin'
Like a river runnin' wild
I can never get enough
That's what I love about your love
It puts the hon in my honey
Oh it puts the fun in my funny
It's right on the money
And all of the above
That's what I love about your love
Knocks me off my feet
Takes me on a trip to another galaxy
Smacks me with a smile
Longer than a country mile
Get's my heart runnin'
Like a river runnin' wild
I can never get enough
That's what I love about your love
That's what I love about your love
That's what I love about your love

That's what I love about your love
The moon is brighter than the morning sun
The birds sing sweeter
And they bee's they buzz
