

# Brain Washers (feat. Ben Harper)

## Blackalicious

Tryin' man, I'm tryin', lies and lies ain't buyin'  
Where do I go, where do I go?  
Tryin' yes, I'm strivin', lies and lies ain't buyin'  
How does it go? Walk to a time when minds was one  
Came into creation as itself, mankind was born  
Step into the eye of the storm, survive as pawn  
Casualties of evil men, slidin' the blinders on  
Lies will spawn, hey, are you conscious what side  
you're on?  
Is the total story told or is it they hide you from?  
Why are we, on the brink of murderin' more innocent?  
Now we slide, we're patriotic and so militant  
Get ya ride on, rise on, take a look  
They done even takin' righteous laws, rewrote the books  
To benefit the prize they got they eyes on  
Minds run rampant, to be revealed when the proper time comes  
Brain washers  
Tryin' man, I'm tryin', lies and lies ain't buyin'  
Where do I go, where do I go?  
Tryin' yes, I'm strivin', lies and lies ain't buyin'  
How does it go? Brain washers, it's when you think how they wanna think  
Speak, how they wanna speak, livin' in defeat  
When you don't wanna question what they teach, as the truth  
With no proof, with the fear of burnin' in eternal heat  
When your programmed not to be your  
own man, but a sheep  
Bein' heard as they word it, so you think it ain't free  
When you sleep in a deep sleep, standin' on your feet  
When your beat makin' ends meat, raw, thin and they see  
Now your labeled obsolete, workin' for relief  
In the heat on bare feet, smile, showin' off your teeth  
Good grief, it's a how they work it  
And they jerk it, while they surf, plus the surf keeps  
The underneath the brain washers  
Tryin' man, I'm tryin', lies and lies ain't buyin'  
Where do I go, where do I go?  
Tryin' yes, I'm strivin', lies and lies ain't buyin'  
How does it go? Tryin' man, I'm tryin', lies and lies ain't buyin'  
Where do I go, where do I go?  
Tryin' yes, I'm strivin', lies and lies ain't buyin'  
How does it go? Tryin' man, I'm tryin', lies and lies ain't buyin'  
Where do I go, where do I go?  
Tryin' yes, I'm strivin', lies and lies ain't buyin'  
How does it go? {You just keep playin', can you bring that level up in my earphones?  
And you bring their level up in my chairs, 'cause I'm playin' with sticks  
And I'm drownin' 'em out, so if you can give them more of this

Yeah, you can bring that in even more, bring up}{ Yeah, you guys play  
Yeah, that's perfect  
Sounds of science  
Kool-Aid, Chemistry, Arrow }
