

# Don't Stop

## Jars of Clay

You told them that I hung the moon  
It was a lonely sliver hanging from the sky  
I said I put it there for you  
I didn't think that it would make you cry  
Don't stop, don't stop for me now  
Don't stop, don't stop for me now  
My recurring dream of you  
Starlight in your eyes and music everywhere  
I am dancing close to you  
There are no days or nights we've left behind  
Don't stop, don't stop for me now  
Don't stop, don't stop for me now  
When you're running, you're running far away  
And you don't know what to do with all my love  
Don't stop for me now  
Why is it so hard to say that you need me  
The way that I need you  
There are no days, there are no nights, we've left them all behind  
And you can't run so far that I won't reach  
There are no places I won't find you  
Don't stop, don't stop for me now  
Don't stop, don't stop for me now  
You keep running, yeah you're running far away  
When all I want to do is be with you my love  
You can run so far, run so far, my love  
By the light of the moon I will get to you somehow  
So don't stop for me now
