## A.M. SNiPER

1 AM

And out of nowhere we're now here

Finger prints on the keys

Blood stains on the strings

Like the ink on my skin

They say that love stings No I'm not going, No I'm not going, No I'm not going nowhere

No I'm not going, No I'm not going, no I'm not going nowhere

No I'm not going, No I'm not going, No I'm not going nowhere

No I'm not going, No I'm not going, No I'm not going nowhere

Your heart is beating with my soul

Didn't mean to let you go

Love is blind but now I see there ain't nowhere for me

So take me with you, take me with you, take me with you, wherever you go

Quality and inspiration baby I'm back like an alien invasion

The voice spreads like a cult to the nation

3fifty7 is the number 1 relation we done cruising

Now we all racing, no we not patient so we all chasing power, money, glory and fame, those  
are the ingredients that take us away from being the same

No we're not the same, they chose to run, I chose to stay, they chose to sin, I chose to pray

God knows everything around you glows like a halo, spread your wings and fly like an angel

Hello, get ready let's go, don't be scared of the spotlight coming outta that UFO, we light-years  
ahead, light-years from home, let's head for the stars, I can't go alone
