

Day Drunk

Morgan Evans

We bought, that champagne for New Years
We got one bottle left
Let's pop it open baby what you say? Stay in that t-shirt you don't need to get dressed
'Cause we got plans to make no plans today I'm thinking happy hour, on the hour
In the kitchen, in the shower
Dancing tipsy, come and kiss me, baby Let's get a little day drunk
Party with that shades on
Play a bunch of old songs
Sing along, get the words wrong (Who cares!)
When you're day drunk
Get down while the sun's up
Make a little good love, like it's date night
In the daylight and it feels right when you're
Day drunk, day drunk, yeah when you're
Day drunk, day drunk
Remember that bottle of whiskey that we bought for your dad
Yeah, we got time to buy another one before his birthday, right?
Let's make today the best that we've ever had
'Cause I'm high on your smile
And when you look at me that way No, you don't need no make up, leave your hair up
Ain't no guest list, girl it's just us
Before the sun sets, baby, let's get crazy And get a little day drunk
Party with our shades on
Play a bunch of old songs
Sing along, get the words wrong (Who cares!)
When you're day drunk
Get down while the sun's up
Make a little good love, like it's date night
In the daylight and it feels right when you're
Day drunk, day drunk, yeah when you're
Day drunk, day drunk, yeah, yeah
I'm thinking happy hour, on the hour
Get a good buzz, on an hour
Dancing tipsy, sing it with me baby And get a little day drunk
Party with that shades on
Play a bunch of old songs
Sing along, get the words wrong (Who cares!)
When you're day drunk
Get down while the sun's up
Make a little good love, like it's date night
In the daylight and it feels right when you're Day drunk, day drunk (Who cares!)
Yeah, when you're

Day drunk, day drunk (Who cares!)
Yeah, when you're
Day drunk, day drunk (It's all I wanna do)
(Is get a little bit drunk with you)
Day drunk, day drunk (Ya I do)
