

# Comfortable (feat. Dappy)

## Yungen

One sec, take time  
One step, at a time  
No time for bad mind Na-na, na, na, na I wear my heart on my sleep  
But they'll rather see me bleed  
Just to get a cut out of love for the p's  
I put on all my g's before I spunk all these g's  
Even though I'm vaca', I'm the one that over-seer  
Started this wave, I got us all getting payed  
I can get a butler with all the money that I made  
Clean-hearted kid and I'mma take that to my grave  
I used to dream a guy plat when I used to hide the braids  
Damn, I got the whole ends buzzin'  
Now everybody's like a friend or cousin  
They didn't wanna know when I have nothing  
But thank god, I really took that and made it suttin'  
We used to hang outside Tennessee  
I can see you ride through your jealousy  
Now your tryna drink up my Hennessy (Yeah)  
Never thought I say, you been my frenemy  
That's why we hear right now  
But I didn't picture this happening months ago  
See I just wanna give my mumma a sixty racks  
We're all just tryna live comfortable  
So would you still love me if I had no money?  
Would you be up in my dm's if I looked all bummy? Yeah  
And yet your here right now  
But don't be getting too comfortable, comfortable  
I went to war and found out my soldiers  
When I needed guidance, I found out my olders  
They said we never had drive  
Now we whippin' Range Rovers  
Luis V loafers, Mercedes with chauffeurs  
This is the life that I prayed on  
This is the wine, not everybody can be ave on  
Not many of us they really came on and stayed on  
I only met him last week, he's talking 'bout day ones  
It's not dat  
Last year I really went to hell and I  
been on my anti shit since I got back  
Took a couple knock-backs  
I just kiss my teeth, they we're here before  
I was flossing and I got plaits

The bread and ting, I got dat We used to hang outside Tennessee  
 I can see you ride through your jealousy  
 Now your tryna drink up my Hennessy (Hennessy)  
 Never thought I say, you been my frenemy  
 That's why we hear right now  
 But I didn't picture this happening months ago (Months ago)  
 See I just wanna give my mumma a sixty racks (Sixty racks)  
 We're all just tryna live comfortable  
 So would you still love me if I had no money?  
 Would you be up in my dm's if I looked all bummy?  
 And yet your here right now (And yet your here right now)  
 But don't be getting too comfortable, comfortable One sec, take time  
 One step, at a time  
 No time for bad mind  
 Na-na, na, na Yungen dumb and almost ended up with nuttin  
 Getting caught up in this passa,  
 goin' court and getting someone judging me for being too direct  
 Oi, all you keyboard warriors can keep pushing buttons  
 Ayy strait up, I was milkin' dis ting until it all turned sour  
 From being at the top to stressing over Radox in the shower  
 I used to do the most, now I'm just tryna be the boss  
 So when they thought I turned ghost,  
 of course I came back with the powers  
 Funny how only it's always my guy  
 How you my guy if your phone don't even connect on my Wi-Fi?  
 It's long if your my don, my don  
 You know where were from, if it's on then it's on We used to hang outside Tennessee  
 I can see you ride through your jealousy  
 Now your tryna drink up my Hennessy (Hennessy)  
 Never thought I say, you been my frenemy  
 That's why we hear right now
