

You Try to Find a Love

Bill Withers

Crazy hours, party nights
Lady power, hardly right
Oh! The showers cold and light
Hot! And lonely every night You try to find a love
You keep holding on, wanting love
You try to find love
You keep holding on,
Just hanging out
Searching for love in the night
Searching for love in the night
Out and easy every night
How you see me is hardly right
A one and only, would be nice
Hot! And lonely every night
You try to find a love
You keep holding on, wanting love
You try to find love
You keep holding on,
Just hanging out
Searching for love in the night
Searching for love in the night
