

Mad Love

Canaan Smith

We fight and we makeup
We're cool then we breakup
Like it's the last time
But it ain't the first We leave and we run back
Baby, so much that
Everyone says that
It'll never work Yeah, we're in it one minute
Then we're flipping that switch
Yeah, it's on again off again
We got that mad love
Haters gonna hate us
Yeah, you and me together
Some kinda crazy
But that's us
Doin' our thing
Throwing more gas on the fire
Sure as the rain
Rolling off of this roof
You'll get her crying
Like Johnny and June
We got that mad love
Can't stop this mad love She give me the goodbyes
Break out the long nights
Baby I know when
The blames died down
Find us some rescue
Alone in the bedroom
Turning on the night
And turn it back around We got that mad love
Haters gonna hate us
Yeah, you and me together
Some kinda crazy
But that's us
Doin' our thing
Throwing more gas on the fire
Sure as the rain
Rolling off of this roof
You'll get her crying
Like Johnny and June
We got that mad love
Can't stop this mad love
Oh no, baby Yeah, we're in it one minute

Then we're flipping that switch
Yeah, it's on again off again We got that mad love
Haters gonna hate us
Yeah, you and me together
Some kinda crazy
That's us
Doin' our thing
Throwing more gas on the fire
As sure as the rain
Rolling off of this roof
You'll get her crying
Like Johnny and June
We got that mad love
Can't stop this mad love
We got that mad love
Can't stop this mad love
Yeah
