

God Provides

Tamela Mann

God provides
So why do I worry about my life
When you come to my rescue a thousand times
Every other voice it is a lie
God provides
God provides
In ways I can't explain and can't deny
The little that I have He multiplies
Just when I feel He won't show up on time
God provides
He'll come through
When the clouds of doubt rain down on you
And test everything you thought you knew
Now you finally see what God can do for you
So tonight
Close your eyes there's no more need to fight
Watch God provide
God provides
It's hard to say when there's no food to eat
Or what you see feels all that life will be
And will this be another year of misery for me
But my faith can't survive on just things I see
And my feelings can't control my destiny
See God I only want what You believe for me
So tonight
Close your eyes there's no more need to fight
Watch God provide
(God provides)
He will provide
(God provides)
Before your eyes
(God provides)
Ooh He will He will
(God provides)
So tonight
Close your eyes there's no more need to fight
Watch God provide
(God provides)
He will provide
(God provides)
Before your eyes, He will
(God provides)

Whatever you need
I know that He will provide
(God provides)
Yes he'll step right in
In the nick of time yes He will
(God provides)
He'll open the windows of heaven
And pour you out a blessing
(God provides)
You won't have room to receive
So tonight
Close your eyes there's no more need to fight
Watch God provide
