

# Down the Rabbit Hole

Adam Lambert

Break out over-mechanical  
Step right up to the freaky intangible  
Hands uncuffed, take the leash on this animal  
Hippies getting high fee, hit me with a night-c  
Step right into your stripper shoes  
Roll the dice, I got snake-eyes and déjà-vu  
Popping off, fire melted with bally-hoo  
Tune in, tune in, turn on, drop out  
Going down the rabbit hole  
Get away from all we know  
Come on, follow  
Come on and follow me  
Going down the rabbit hole  
With hoes and gigolos  
Come on, follow  
Come on and follow me  
Quick, slow, high or low  
You never gonna know for sho'  
See in stereo  
Down the rabbit hole  
Catnip and honey  
See it happen all over town  
Houses are candy  
Build 'em up and then burn 'em down  
It melts in your face, not in your amour-all  
It starts in the bass and it ends in the crystal ball, yeah  
Going down the rabbit hole  
Get away from all we know  
Come on, follow  
Come on and follow me  
Going down the rabbit hole  
With hoes and gigolos  
Come on, follow  
Come on and follow me  
Disco rodeo  
My kaleidoscope  
Cleopatra knows  
What's down the rabbit hole  
Going down the rabbit hole  
Get away from all we know  
Come on, follow  
Come on and follow me  
Going down the rabbit hole  
With hoes and gigolos  
Come on, follow  
Come on and follow me  
Quick, slow, high or low  
You never gonna know for sho'

See in stereo  
Down the rabbit hole Who are you?  
Who are you?  
Who are you?  
Who are you?
