

# Running in the Rain

Jasper Sawyer

let's go running in the rain  
I've been there and back again  
I know how to fix a heart  
love's the cure right from the start All the love we have we have is true  
there is something special in you  
since your sun has set and the clouds are all that's left  
oh oh oh  
let's go running in the rain Let's go running in the rain  
there you wash away the pain  
we'll be running side by side  
till we cross the finish line  
All the love we have is real  
and in time your heart will heal  
since there's no sunshine just thundering in the sky  
oh oh oh  
let's go running in the rain got me singing oh  
oh oh oh oh oh oooh  
got me singing oooh  
oh ooh oh Now we're running on the rain  
oh I can see a better day  
so get ready for the sun  
girl I promise it'll come I have always loved you  
in my mind I would thought you knew  
though rain pours down  
I will be around  
oh oh oh  
let's go running in the rain  
All the love we have is true  
(don't you know that it's true)  
there is something special in you  
so come rain or shine  
I'll be by your side  
so let's go  
let's go running in the rain  
I'll be running with you rain or shine  
let's go running in the rain  
I'll be running with you rain or shine  
let's go running in the rain END
