

Kevin's Heart

J. Cole

She my number one I don't need nothing on the side
Said that I was down for good and don't want no more lies
But my phone be blowing up, temptations on my line
I stare at the screen a while before I press decline
But she plants the seed and it still lingers in my mind
Told myself I'm strong enough to shake it and I'm trying
But I'm only human, I know loving you's a crime
If I take this cookie now one day I'll do the time Slip me a xanny at once
I got the herb from the blunt
I get the skirt when I want
I get the skirt when I want
Due to the money aroma
My girl she got a diploma
She got white print and I love her
She got white print and I love her
All a nigga know is how to fuck a good thing up
Run from the pain, sip lean, smoke tree up
When I'm in your town press pound hit me up
When I'm in your town press pound hit me up
Only if you down and you slurp good D up
If the work good I'll be back for the re-up
Hate when I creep and the phone wake me up
Fake like I'm sleep knowing damn well I be up
Monkey on my back and I walk a hundred miles
Guilt make a nigga feel fake when he smile
Love can confuse the mind of a child
Cause love wouldn't lie like I lie in this well
Wanna have my cake and another cake too
Even if the baker don't bake like you
Even when the flavor don't taste like you
So I'm back Mamba with the late night crew
All in your mind with fears that would come true
The back of my mind, the back of my mind was you
Wishing that I could blind myself from view
The only advice, the only advice for you Slip me a xanny at once
I got the herb from the blunt
I get the skirt when I want
I get the skirt when I want
Due to the money aroma
My girl she got a diploma
She got white print and I love her
She got white print and I love her

I'm a fake nigga and it's never been clearer
Can't see myself when I look in the mirror
Can't see myself when I look in the mirror
Can't see myself when I look in the mirror
I'm a fake nigga and it's never been clearer
Can't see myself when I look in the mirror
Can't see myself when I look in the mirror
Can't see myself when I look in the mirror
She my number one I don't need nothing on the side
Said that I was down for good and don't want no more lies
But my phone be blowing up, temptations on my line
I stare at the screen a while before I press decline
But she plants the seed and it still lingers in my mind
Told myself I'm strong enough to shake it and I'm trying
But I'm only human, I know loving you's a crime
If I take this cookie now one day I'll do the time I love her, I don't want to lose you
I'm selfish, I know that I use you
My ego get stroke and I bruise her
My ego get stroke and I bruise her
My actions I know they confusin'
At home I look happy as usual
On the road I'm a mac, I'm a chooser
I'm a addict, I'm maskin' that
Kevin's Heart They tell me what's done in the dark
We'll find a way to shine
I done did so much that when you see you might go blind
What's done in the dark will always find a way to shine
I done did so much that when you see you might go blind
