

# Spending the Night Alone

Adrian Marcel

Turn the lights off These kisses never seem to fade away  
I can feel em on my face  
They still feel perfect  
That's why I cant go another day  
Laughin when I see you smile  
Happy just to be there  
Even when you down, girl I been needin'  
You around girl, yeah, yeah  
But you been missin' for too long  
And I ain't ready to move on I'm callin'  
All yo friends to help me find you, baby  
She got me layin' here by the phone  
I can't keep spendin' the night alone  
I've got all I could ever want  
But it just ain't enough if it ain't you, baby  
(She got me layin' here by the phone)  
(I can't keep spendin' the night alone)  
(I've got all I could ever want)  
(But it just ain't enough if it ain't you, baby) Travel by your momma's house  
Hopin' just to catch a short glimpse  
Of you and I'd be hopin' that you  
Don't find out how much it's killin' me, girl  
Please girl, my heart can't take another day  
Nah, na na na na  
But you been missin' for too long  
And I ain't ready to move on I'm callin'  
All yo friends to help me find you baby  
She got me layin' here by the phone  
I can't keep spendin' the night alone  
I've got all I could ever want  
But it just ain't enough if it ain't you, baby  
(She got me layin here by the phone)  
(I can't keep spendin' the night alone)  
(I've got all I could ever want)  
(But it just ain't enough if it ain't you, baby)  
Ha ha ha oh oh Ha ha ha oh oh  
Ain't enough if it ain't you baby It's hurtin' me when you ain't near  
I love her, please, I need her here  
I'm not complete, no, she's my air,  
yeah yeah It's hurtin' me when you  
Ain't near I love her, please, I need her  
here I'm not complete, no, she's my air She got me layin here by the phone

I can't keep spendin' the night alone  
I've got all I could ever want  
But it just ain't enough if it ain't you, baby  
(She got me layin here by the phone)  
(I can't keep spendin' the night alone)  
(I've got all I could ever want)  
(But it just ain't enough if it ain't you, baby)
