

Different People (feat. Tree Giants)

Social Club Misfits

Yeah yeah

Uh yeah

All my friends wanna settle down

Honestly finding a good girl is harder now

Tell me how i can help them out when most of the people in my life who were married aren't
together now

It's getting worse everyday it seems

But being with the wrong one can devastate your dreams

I waited for marriage i know thats old school

She passed that Sunday test that's an old move
