

# This Mountain

Faouzia

Climbing up this mountain  
Climbing up twice  
Hoping that I make it this time But I'm so done with hoping  
Cause hoping is to failing is to Falling down this mountain  
Falling down again  
Boom, boom  
Heart beats still beating in the end  
I'm choking  
But that's just what they wanted So I get up off the ground  
And I shake it out  
Ra da da  
Come, look at me now  
Look at me now  
I'm not here to talk  
I'm not here to talk  
I'm just here to walk  
Here to walk I'm gonna make it up this mountain  
Make it to the top  
Show them what I'm made of  
Show them what I've got I will, I will, I will  
I will, I will, I will  
So mark my words  
Before you swallow yours I'm gonna make it up this mountain  
Make it to the top  
Show them what I'm made of  
Show them what I've got  
I will, I will, I will  
I will, I will, I will  
So mark my words  
Before you swallow yours just like a pill Started as a question  
Ended as a fact  
When I found out I'm the only one that has my back  
I'm drowning  
Cause they fill my lungs with venom And the sharks are coming out  
And they're hungry now, ra da da  
Sharks are coming out  
I put them out I'm gonna make it up this mountain  
Make it to the top  
Show them what I'm made of  
Show them what I've got I will, I will, I will  
I will, I will, I will  
So mark my words

Before you swallow yours I'm gonna make it up this mountain  
Make it to the top  
Show them what I'm made of  
Show them what I've got I will, I will, I will  
I will, I will, I will  
So mark my words  
Before you swallow yours just like a pill Ay, before you swallow yours just like a pill  
Ay, before you swallow yours just like a pill I would never lie  
So mark my words before you swallow yours
