

Down for the Third Time

[Bobby Caldwell](#)

Left your mark in a distant past
But somehow it's all gone now
Good things can never last You are down for the third time
And you spent your change
Memories of your prime
Make life seem so strange Through your life you've been well to do
Times have changed and rearranged
Now no one remembers you
You are down for the third time
And you spent your change
Daddy won't mind
When you rearrange your life
