## The Band Perry

You've been wearing that crown and tearing me down  
It's been a while since you've treated me right  
You strung me along for far too long 'cause I never gave up the fight  
Until now

It's gonna hit you hard till you see stars  
It's gonna put through you a world of hurt  
Oh, I don't believe in getting even but getting what you deserve  
Oh my, oh my Mama always told me that I should play nice  
She didn't know you when she gave me that advice

I'm through, with you  
You're one page I'd like to burn  
Bottle up the ashes, smash the urn  
I'm through with you, la ti da  
I don't wanna be your just-for-fun  
Don't wanna be under your thumb  
All I wanna be is... DONE.

Done.

You crossed the line too many times  
I'm gonna put you in your place  
You play with dynamite, don't be surprised when I blow up in your face  
Oh my, oh my

Mama always told me that I should play nice She didn't know you when she gave me that advice

I'm through, with you  
You're one page I'd like to burn  
Bottle up the ashes, smash the urn  
I'm through with you, la ti da  
I don't wanna be part of your fun  
Don't wanna be under your thumb  
All I wanna be is... DONE.

(Done) With your selfish ways  
(Done) And all the games you play  
I'm through with you and everything you say  
(Fiddle Solo)

Mama told me that I should play nice  
She didn't know you when she gave me that advice Mama always told me that I should play nice  
But she didn't know you when she gave me that advice (I'm through) I'm through (With you)

With you  
You're one page I'd like to burn  
Scatter in the ashes, smash the urn  
I'm through with you, la ti da  
I don't wanna be your just-for-fun  
Don't wanna be under your thumb

All I wanna be is... DONE.  
All I wanna be is... DONE.  
UGH!  
Hey eh eh eh oh oh!  
I wanna be done (So done)  
So done (So done)  
So done
