

Freaking Me Out (feat. Alex Gaskarth)

Simple Plan

What the hell's going on? Have you gone undercover?
You were here; now you're not
Been replaced by another
'Cause it's still your face
But there's something strange Not the one I remember
Can you please explain?
Did they wipe your brain? Is this gonna be forever?
'Cause everything you say, everything you do
Is freaking me out, freaking me out You know we used to be the same
Who the hell are you?
You're freaking me out, freaking me out
And I swear I thought I knew you
But all that was yesterday
And now you turned it around What's that about?
'Cause you're freaking me out, freaking me out
Think you're real, but you're fake
Think you're deep, but you're shallow
You've become what you hate
Now you're lost; just a shadow So who pulls your strings?
'Cause it makes no sense That you act like you're better
You can say these things To your so-called friends
And they just might think you're clever
But everything you say, everything you do
Is freaking me out, freaking me out
(You're freaking me out)
You know we used to be the same
Who the hell are you? You're freaking me out, freaking me out
And I swear I thought I knew you
But all that was yesterday And now you turned it around
What's that about?
'Cause you're freaking me out, freaking me out
(Wake up, wake up, wake up) Snap out of it
(Wake up, wake up, wake up) Snap out of it
(Wake up, wake up) Wake up
Everything you say, everything you do Is freaking me out, freaking me out
(You're freaking me out)
You know we used to be the same
Who the hell are you?
You're freaking me out, freaking me out
Now everything you say, everything you do
Is freaking me out, freaking me out
(You're freaking me out)

So why you play your games?
Who you trying to fool?
You're freaking me out, freaking me out
And I swear I thought I knew you
But all that was yesterday
And now you turned it around
What's that about?
'Cause you're freaking me out, freaking me out
