

Ghost

Mystery Skulls

Cause the world might do me in
It's all right cause I'm with friends
Cause I'm giving up again
It doesn't matter And I'm feeling like a ghost
And it's what I hate the most
Cause I'm giving up again
And this time (this time, this time) This time I might just disappear
This time I might just disappear
This time I might just disappear
This time I might just disappear Try and hear me then I'm done
Cause I might just say this once
Seen this played out in my dream
It doesn't matter
Time for givin' up the ghost
Fuck it's you I hate the most
And there is no guarantee
It doesn't matter
This time I might just disappear
This time I might just disappear
This time I might just disappear
This time I might just disappear
