

How I Love You (feat. Styles P)

Sheek Louch

Yo, I mean you been there for me you know wut I'm sayin'
And I won't, you know, I won't do you wrong ever again, nah mean
And you just, you been there and I'ma be there for you from now on
You, nah mean, I ain't gonna neglect you, I ain't gonna do
None of that shit you got my full undivided attention
And it's I'm sayin' I ain't afraid to say it, I love you, I love her
I love her, fuck it I love her, let's go, I ain't afraid to say it, I'm a thug
More than that I'ma man you nah mean, I'm in love, you my bitch
Let's go I used to dream about you watchin' every move you made
I was young tho I think 3rd or 2nd grade
I'd go home, write a poem, put it right to a beat
What I would do what I would say if we would one day meet
Started gettin' older, still lovin' your style
How you dressed how you drove the whole '80's wild
I was proud when you 1st got on MTV
You was in the video chillen' wit Run DMC
That's my girl, saw a nigga feinin' ta hit it
Knowin' one day in the future I'll be right up in it
Started doin' talent shows I had it off the hook
You was there but you was too big you wouldn't even look
I ain't mad you ain't notice 'til I got wit a group
But even den it wasn't nothin' less I got in a coup
Started goin' crazy everyday you switch up on me
Puttin' that right in my face you knowin' me so horny, come on How I love you
You all I got, you all I want, you all I need
How I love you
From day one to my death bed you all I breathe
How I love you
I'm disciplined, I'm dedicated and determined too
How I love you
You got your ups and downs but I don't really mind, I'll still ride witchu
Okay listen, the group doin' good, still in the hood
Got a nickname Sheek now you startin' to speak
Said you wanna fuck wit all 3 if that's okay
I'm like cool once I hit it it was that anyway
A couple years gone past, still havin' a ball
A million times got the pictures hangin' on my wall
When I first hit it I was like Sheek the man
I stopped givin' you the attention I originally planned Den you stopped fuckin' wit me and left
me alone
The people only seen you wit Jada and P
You even went around town and started doggin' me bad

It was my fault you know I couldn't even get mad
I had to grab the pen and pad and get right back
Write some more poems to ya ass and get back on track
I ain't got no problem tellin' you I love you to death
And I'm whipped and my shit'll be blown if you skipped, let's go
How I love you
You all I got, you all I want, you all I need
How I love you
From day one to my death bed you all I breathe
How I love you
I'm disciplined, I'm dedicated and determined too
How I love you
You got your ups and downs but I don't really mind, I'll still ride witchu
Yo, I had to hit the streets they said you be out there a lot
And I could find you around any nigga out that's hot
Every club, every whip, every gamblin' spot
You know you'd rather be wit me, you like to bug out
Love to bring the thug out, plus I be keepin' it tight
We even go to work together let you play all night
You mad loud while I sit and I write
We done seen the world together but not on cable
All your friends lovin' me you even got me a label
Got magazines lovin' our relations
People like to hear us talk DJ's record our conversations
You good round other people especially kids
You make them happy even brothers doin' their bids
And I ain't jealous at all go out and spread your wings
And you can hang wit pop just pick up the phone when it rings, let's go
I ain't gon lie to y'all I'm whipped
How I love you
You all I got, you all I want, you all I need
How I love you
From day one to my death bed you all I breathe
How I love you
I'm disciplined, I'm dedicated and determined too
How I love you
You got your ups and downs but I don't really mind, I'll still ride witchu
How I love you
How I love you, how I cry
How I love you
How I love you
