

Got 2 Be Down

Robin Thicke

This goes out to you and you and you
Check it out, 1, 2, 1, 2 All this love and aggravation
I wasted so much of my life
All this truth and separation
We work so hard to make things right Got that lovin', got that seed
Got that suga, got that sweet
Got that money, got that beat
Got that whatever you need Oh, I can't hide it, you're my world
Got me thinkin' I'm no good
Chocolate lover, you're so sweet
Got me thinkin' on my feet, say
There'll be no problems to get out of
I got 2 be down
And amazin', I'll go crazy
In this house, I got 2 be down We gotta get it together
We gotta get it together
We gotta get it together
We gotta get it together You were always number one to me
Even when I cursed your name
And if I could, I would've been gone
But nothin's like bein' in love with you Got that lovin', got that seed
Got that suga, got that sweet
Got that money, got that beat
Got that whatever you need
Oh, I can't hide it, you're my world
Got me thinkin' I'm no good
Chocolate lover, you're so sweet
Got me thinkin' on my feet, say There'll be no problems 2 get out of
I got 2 be down
And amazin', I'll go crazy
In this house, I got 2 be down We gotta get it together
We gotta get it together
We gotta get it together
We gotta get it together We gotta get it together
We gotta stick together
We gotta stay together
We gotta get it together I'll go crazy, baby
Livin' without you
I've got 2 be down
And amazin', I'll go crazy
Livin' without you
I've got 2 be down We gotta get it together

We gotta get it together
We gotta get it together
We gotta get it together We gotta stay together
We gotta stick together
We gotta stay together
We gotta get it together We gotta get it together
We gotta get it together
We gotta get it together
We gotta get it together We gotta get it together
We gotta stick together
We gotta stay together
We gotta get it together What we need
Said, we got to get it together
Come on, baby, got 2 be down
