## Chase N Cashe

It's me and you, and you and me  
We all alone, just doing we  
Lost in my world, it's going deep  
And you don't mind that, you just recline back.  
You catching contact, shit, sometimes you hit it  
You always rolling, with such precision  
See I'm so persistent, it's so consistent  
And you fucking dig it, girl just admit it.  
See you let me in it, knowing I handle business.  
Always a pleasure whenever I visit  
I been thinking of staying, you been thinking of playing  
Girl you my angel on earth, for you, yeah I've been praying.  
Yeah you got me straying from my turf, tryina grow with you  
From the grass, cruising, make it work  
Make you get a tattoo of my name  
Which one, pick one, as long as you pick me,  
Gotta keep you with me.  
I swear it feel like, everyday it feel like  
It feel like, ah, love, yeah  
I swear it feel like, yeah, yeah, feel like  
Feel like, feel like, word, look. You say you feeling me, well keep it real with me  
Claim that you'll always be true, so keep it true with me  
If I ever bleed red would that make you blue?  
Girl tell me is you crazy for me like I am for you.  
Got a spot at the top, make room for two  
Try to, try to not drop the broom for you maybe too soon  
Ain't acting too cool, but the way you stay about it  
Make me contemplate about it,  
What you say about it?  
I swear it feel like, everyday it feel like  
It feel like, ah, love, yeah  
I swear it feel like, yeah, yeah, feel like  
Feel like, feel like, word, look. Girl, you don't have to find another,  
'cause I'll be your man, plus your friend.
