

I Can't Make Me

Butterfly Boucher

How does it happen
The ship is a wreck
The skies have opened and delivered a mess
What do we do when it's out of control? My hands are worn
My heart is torn (We stand, we stand, we can't stand to fall down)
Here comes another
(We stand, we stand, we can't stand to fall down)
It pulls me under
(We stand, we stand, we can't stand to fall down)
Here comes another
(We stand, we stand, we can't stand to fall down)
Don't pull me under
My heart is waiting to figure it out
Throw me something
Help me turn it around
What do we do when we're out of control? My hands are worn
My heart is torn (We stand, we stand, we can't stand to fall down)
Here comes another
(We stand, we stand, we can't stand to fall down)
It pulls me under
(We stand, we stand, we can't stand to fall down)
Here comes another
(We stand, we stand, we can't stand to fall down)
Don't pull me under Oooooooo Oooooooo
I won't stay here suspended forever
I must be on my way
I won't stay here helpless forever
I must be on my way
I won't stay here suspended forever
(Here comes another)
I must be on my way
(It pulls me under)
I won't stay here helpless forever
(Here comes another)
I must be on my way
(Here comes another) We stand, we stand, we can't stand to fall down
(It pulls me under)
We stand, we stand, we can't stand to fall down
(Here comes another)
We stand, we stand, we can't stand to fall down
