

Busted

Hot Action Cop

Everybody knows troubles easy to get
burnt out dealer to the teachers pet
for some fun there is always sex
hidin in the corner like a shy t-rex
Around your home are the ways and means
guns hidin under porno magazines
there's moves and deals
cheap thrills and dreams
murder is a game on a pc screen
Little baby lost to the world outside
trying not to let anyone inside
learnin what you get from a tv set
and it makes you crazy
hide it all away on a bathroom shelve
busted in the mirror by an image of yourself
beautiful as this whole world can be
you just don't see it
And it makes me crazy
This chicks tryin to pay for things
swinging from a pole with a nipple ring
this dudes tryin to ease the sting
tyin off his arm with a nylon string
mirror mirror can you tell
if they're knealin in confession or if they just fell
the mirror looks back and knows damn well
it's really hard livin when you're livin with yourself
Little baby lost to the world outside
tryin not to let anyone inside
only love you gets from a tv set
and it makes you crazy
hide it all away on a bathroom shelve
busted in the mirror by an image of yourself
talking in your head
lay awake in bed
in the twilight screaming
and it makes me crazy
it drives me crazy yeahyeah
it makes me crazy
Everybody lost in the world outside
try to fill the hole that will grow til the day that you die
never knew it would be this way
livin in a place that you never wanna face

night and day
never knew it would be this way
and it drives me crazy
Everybody lost in the world outside
losin all control of the road they drive
the only love you gets from the tv set
and it makes you crazy
hide it all away on a closet self
busted in the mirror by an image of yourself
talkin in your head
lay awake in bed
and it makes me crazy
