

Nothing To Lose

Emblem3

You should roll with me, whatcha got to lose? I can make your teenage dream come true.
And all I wanna know is if you're feeling me or not.
Cause I'm looking at the clock, it goes tick-tick-tock.
I wanna make you my lady, I ain't tryna' hear no 'Call me Maybe'
I ain't never seen, a girl so sweet.
I could be your surf board, you could be my beach. You spend all night lookin' down at your
phone,
Girl, you need to get over it, you need to get over it, yeah.
Just one kiss then we both go with the flow,
I'm a help you get over it, help you get over it, yeah. You don't gotta wait no longer, you don't
gotta be so shy.
I just wanna pull you closer, I just wanna cross that line.
So baby come on, cause the night is almost over,
So let's have the time of our lives like we got nothing to lose.
You know what I'm sayin, I hope you feel the same, yeah.
(Like we got nothing to lose)
You know what I'm sayin, I hope you feel the same, yeah.
(Like we got nothing to lose) I can tell by the way that you rollin you're eyes
You get a lot of attention, probably fed up by guys.
And I can try to convince you I'm different, but you look so good,
It's hard to put together a sentence. Get it On.
So if you could just imagine, what's goin' through my head.
And all the fun we'd have
If you give me a chance, I can promise you this,
You won't be singing break up songs, like that Taylor chick. You spend all night lookin down at
your phone,
Girl you need to get over it, you need to get over it.
Just one kiss, then we both go with the flow.
I'm a help you get over, help you get over it, yeah.
You don't gotta wait no longer, you don't gotta be so shy.
I just wanna pull you closer, I just wanna cross that line.
So baby come on, cause the night is almost over,
So let's have the time of our lives like we got nothing to lose. You know what I'm sayin, I hope
you feel the same.
(Like we got nothing to lose)
You know what I'm sayin, I hope you feel the same.
(Like we got nothing to lose) I mean considering the fact that we're at a high school party right
now
And I'm not in high school, neither are you
So, I mean we could just, uhm, go back to to my house, yeah so You don't gotta wait no longer,
you don't gotta be so shy.
I just wanna pull you closer, I just wanna cross that line.

So baby come on, cause the night is almost over,
So let's have the time of our lives like we got nothing to lose. You know what I'm sayin, I hope
you feel the same, yeah.

(Like we got nothing to lose)

You know what I'm sayin, I hope you feel the same, yeah.

(Like we got nothing to lose)

You know what I'm sayin, I hope you feel the same, yeah.

(Like we got nothing to lose)

You know what I'm sayin, I hope you feel the same, yeah.

(Like we got nothing to lose)
