

# Empty Heart

Grace Potter

You know how to make me weak in the knees  
When you pour yourself all over me  
But somebody [?] back in the day  
Now you never ever love  
Now you only wanna play I cry when you do, I cry when you don't  
Why won't you tell me what, what you want with me  
One day we're together then we're apart  
Why won't you let me fill up your empty heart  
There's a big hole in the [?] Cause somebody left you black and blue  
Yeah we all make promises we can't keep  
They're paper thin but cut so deep I cry when you do, I cry when you don't  
Why won't you tell me what, what you want with me  
One day we're together then we're apart  
Why won't you let me fill up your empty heart Why won't you let me fill up your empty  
heart (Fill up your empty heart) 8X I cry when you do, I cry when you don't  
Why won't you tell me what, what you want with me  
(Fill up your empty heart) 2X  
One day we're together then we're apart  
Why won't you let me fill up your empty heart  
(Fill up your empty heart) 2X  
I cry when you do, I cry when you don't  
Why won't you tell me what, what you want with me  
(Fill up your empty heart) 2X Why won't you let me fill up your empty heart
