

# Hang On

## X Ambassadors

When you feel like Indiana, Indiana Jones  
When they got you in a trap, dodging darts and bones  
When you're on the ropes, on the ropes  
When they got you on the ropes, on the ropes You know you got to hang on, hang on  
Put your old-found faith as though you got to hang on, hang on, yeah  
Put your old-found faith as though you got to hang on and don't let go  
Like Indiana Jones, you got to hang on, hang on  
Put your old-found faith as though you got to hang on  
When they throw you down a hole, snakes and scorpions  
When they got you in their evil grips with those ancient forces  
When you're on the ropes, on the ropes  
When they got you on the ropes, on the ropes You know you got to hang on, hang on  
Put your old-found faith as though you got to hang on, hang on, yeah  
Put your old-found faith as though you got to hang on and don't let go  
Like Indiana Jones, you got to hang on, hang on  
Put your old-found faith as though you got to hang on  
Put your old-found faith as though you got to hang on, hang on  
Put your old-found faith as though you got to hang on, hang on, yeah  
Put your old-found faith as though you got to hang on and don't let go  
Like Indiana Jones, you got to hang on, hang on  
Put your old-found faith as though you got to hang on
