

Stay

Mac Miller

Whoa whoa whoa whoa whoa
Whoa whoa, whoa whoa
Whoa whoa whoa whoa whoa
Whoa whoa, whoa whoa
Whoa whoa whoa whoa whoa whoa whoa whoa whoa whoa
Whoa whoa, whoa whoa Will, you, stay, just a little while, babe?
Just a little while, just a little while, just a little while
Will, you, stay, just a little while, babe?
Just a little while, just a little while, just a, just a little while
Yeah, hold up, wait a motherfuckin' second
I know you stressin', you don't gotta keep me guessin'
I'm full of questions, in return I get the silent treatment
I don't know why I'm speakin'
You say, you say, you say
It's way too late, goodbye, you leavin'
Why you got me stressin'?
I could have a whole collection
Just be faded in my own dimension
You so complicated, I swear that pussy Grammy nominated
Let's make some music, fuck all of the bullshit Will, you, stay, just a little while, babe?
Just a little while, just a little while, just a little while
Will, you, stay, just a little while, babe?
Just a little while, just a little while, just a, just a little while
Okay now, baby, don't you leave my side, don't even try
I'mma go crazy, girl, you saved me
Meditate me, get me piece of mind
It's only she and I, ocean floor, how deep we dive
We be high lookin' for another fuckin' tree to climb
She was playin' hard to get, I read between her lines
Binge watched "Sopranos", made it all the way to season five
I am her, she is I
She had to come, see her freaky side, leavin' me behind Will, you, stay, just a little while, babe?
Just a little while, just a little while, just a little while
Will, you, stay, just a little while, babe?
Just a little while, just a little while, just a, just a little while
Just a little while, just a little while, babe The way you walkin' to the room, oh oh oh
All I think about is what I wanna do to you
I don't wanna be polite no more
Make yourself at home, where the fuck you gon' go?
Yeah, girl, the way you walkin' to the room, oh oh oh
All I think about is what I wanna do to you
I don't wanna be polite no more

Make yourself at home, where the fuck you gon' go, girl? Will, you, stay, just a little while,
babe?

Just a little while, just a little while, just a little while

Will, you, stay, just a little while, babe?

(The way you walkin' to the room, oh oh oh

All I think about is what I wanna do to you)

Just a little while, just a little while, just a, just a little while

(I don't wanna be polite no more

Make yourself at home, where the fuck you gon' go?)

Will, you, stay, just a little while, babe?

((The way you walkin' to the room, oh oh oh

All I think about is what I wanna do to you)

Just a little while, just a little while, just a little while

(I don't wanna be polite no more

Make yourself at home, where the fuck you gon' go?)

Will, you, stay, just a little while, babe?

Just a little while, just a little while, just a, just a little while Will you

Will you

Will you
