

# One Way Trip

## Havana Brown

Clocks keep ticking on my window, babe  
I can't sleep, I'm in a daze, in a daze  
Since I met you my feet ain't hit the ground  
Let's turn this world upside down down I'm gonna take you on a one way trip straight to the stars  
Love the way it feels when I'm in your arms  
Can we roll like that?  
Tell me baby, can we roll like that? I'm gonna take you on a one way trip straight to the stars  
Love the way it feels when I'm in your arms  
'Cause I roll like that  
Tell me baby, can we roll like that? Rain keeps tapping on my window, babe  
Got my head up in the clouds, in the clouds  
Catch my breath when you say my name  
You turn my world inside out  
I'm gonna take you on a one way trip straight to the stars  
Love the way it feels when I'm in your arms  
Can we roll like that?  
Tell me baby, can we roll like that? I'm gonna take you on a one way trip straight to the stars  
Love the way it feels when I'm in your arms  
'Cause I roll like that  
Tell me baby, can we roll like that? Can we roll? Can we roll?  
Can we roll? Can we roll? Like that  
Yea, we roll like that I'll take you to a place you've never been  
Set your heart free free again  
Take my hand now and we can blast off  
We're gonna blast off, we're gonna blast off  
I'm gonna take you on a one way trip straight to the stars  
Love the way it feels when I'm in your arms  
Can we roll like that?  
Tell me baby, can we roll like that? I'm gonna take you on a one way trip straight to the stars  
Love the way it feels when I'm in your arms  
'Cause I roll like that  
Tell me baby, can we roll like that? I'm gonna take you on a one way trip straight to the stars  
Love the way it feels when I'm in your arms  
Can we roll like that?  
Tell me baby, can we roll like that? Like that, like that..
