

# It Ain't What It Seems

Jasper Sawyer

It aint what it seemsChorus:  
Look at all of the money you are making now  
You're living the dream  
Look at all the people you're connected to  
Don't forget about meCan I borrow some money I look up to you  
Help me to achieve  
Still I'm needing that money but I do love you  
It aint what it seemsVerse 1:  
I got a friend that graduated college  
Middle school we made a pact when she made it  
I would be her client  
Studied law, hit them books a lot  
I see her rising, and I'm happy cause I know she ain't never stopped  
I know a dude who owns a barbershop in the valley Cali green  
Fresh cuts, and reciprocity  
He said the rich got problems, we don't even know  
He said let him have my problems, I bet you they won't trade me thoughI laughed hard cause I  
know it's the truth  
But on the other side people start coming at you  
And on another side, money starts flowing from you  
To faces you know, and faces you don't, what do you doTake a step back and think about it  
If you never made a dime would it be so crowded  
So a barber or a lawyer  
Still they gonna call you  
Everyday they bother  
A hit dog will holler heyChorus  
Verse 2:  
My niece loves me forever  
Working hard, I'm passing through Kentucky, yeah we kick it together  
I say keep on saving your money  
Keep it quiet, cause when people you know got it  
They start acting funnyThey start calling on the regular  
Texting on your cellular  
Loving you and hating you  
Now you're their competitorSuccess can be a curse when the people act irregular  
Being broke is worst so we chase it to the death of usCome up in the world uh say that again  
Now you're hanging with your enemies that say they're your friends  
Cause you spending money from a well they think never ends  
Cut em off before you fall, before you beginI know this dude chasing music dreams  
Writing songs, mixtapes, staying up late  
Working seven a weekAnd now a little money falling through  
I figured out first you losing then you winning then they all love you heyBridge:

I gave five dollars they aint paid me back  
I gave ten dollars they aint paid me back  
I gave twenty dollars they aint paid me back  
I gave a hundred dollars they aint paid me back All these people say that they got my back  
But when I really need em tell me where they at  
They wanna borrow money 5x Twenty five, a hundred too, five stacks  
You out your mind, I gotta move, I gotta move Chorus  
Repeat 2x
