

# I Love NYC

Andrew W.K.

I love New York City  
Oh yeah, New York City  
I love New York City  
Oh yeah, New York City Run it over, run them out  
Knock your block or tearing your doubt  
Move on corners, move around  
Talk no talk, breaking you down We are a corporation, we are a company  
We cut high but we're cuttin high anyway  
We are your mother's father, we are your fighter friend  
It never started and it won't end I love New York City  
Oh yeah, New York City  
I love New York City  
Oh yeah, New York City  
Broken faces, burnt and bent  
Deal off the love song from every white man  
Ride on nothin', ride your head  
Got no fear, sayin' not said We are a population, we are a factory  
We don't do, but we never did anyway  
We are your mother's father, we are your fighter friend  
You can't start what you can't end I love New York City  
Oh yeah, New York City  
I love New York City  
Oh yeah, New York City Oh oh oh  
Oh oh oh I love New York City  
Oh yeah, New York City  
I love New York City  
Oh yeah, New York City  
I love New York City  
Oh yeah, New York City  
I love New York City  
Oh yeah, New York City  
I love New York City  
Oh yeah, New York City I love New York City  
Oh yeah, New York City  
I love New York City  
Oh yeah, New York City
