

# Memories Remain

## Dropkick Murphys

well we started shooting hoops  
now were sipping black and tans  
from the park to the pub  
was the course we ran  
the times have changed  
but friends remain  
my hart and souls with you  
cause one things for sure

I allways swore id never turn my back on you  
never turn my back stuck together through and through  
the times have changed but my hart and souls with you  
wouldnt turn your backs and you didnt walk away  
nver run we stand as one and this is what we say  
as times were tough but the memories remain  
situations rough but we overcame  
side by side one for all together we grew  
cause when all is said and done ill remember friends like you(hey!) I was down and I was out  
and no one liked my games

one to many fights and bloody nights for which I was to blame  
but you wouldnt turn your backs and you didnt walk away  
cause we never run we stand as one until this very day  
never turn your backs stuck together through and through  
though times have changed but my hart and souls with you  
wouldnt turn your backs and you didnt walk away  
we never run we stand as one untill this very day  
times were tough but the memories remain  
situations rough but together we overcame  
side by side one for all together we grew  
cause when all is said and done ill remember friends like youthe times were tough but the  
memories remain  
situations rough but together we overcame  
side by side one for all together we grew  
cause when all is said and done ill remember friends like you...  
like you...  
like you
