

# Do It with Me

## Old Dominion

If you wanna fall  
Baby, you know who to call  
You can always fall into me  
If you wanna hang  
Girl, you know it ain't no thang  
You can hang like a peach on a tree  
You can be the gin and tonic on my lips when  
Everybody else goes home  
I could be the throwback, record with a slow back  
Beat that you don't wanna turn off  
If you're gonna get drunk  
If you're gonna stay home  
If you're gonna take a ride  
Don't take it alone, no  
If you're gonna lay around in a T-shirt  
Watching nothing on the TV  
If you're gonna do anything  
Do it with me  
Come on, come on  
Do it with me  
Come on, come on  
It don't matter what you wear or what you do with your hair  
I don't care if it's nothing at all  
If your lips or your hands ever need a place to land  
I can keep you from climbing the walls  
Girl, you got my number  
You don't have to wonder  
I'll always pick it up when you call  
If you're gonna get drunk  
If you're gonna stay home  
If you're gonna take a ride  
Don't take it alone, no  
If you're gonna lay around in a T-shirt  
Watching nothing on the TV  
If you're gonna do anything  
Do it with me  
Come on, come on  
Do it with me  
Come on, come on  
If you're gonna get crazy  
(Do it with me)  
Get down like it's your birthday  
(Do it with me)  
If you wanna keep it low-key  
If you're gonna get drunk  
If you're gonna stay home  
If you're gonna take a ride

Don't take it alone  
If you're gonna lay around in a T-shirt  
Watching nothing on the TV  
If you're gonna do anything  
Do it with me  
Come on, come on  
Do it with me  
Come on, come on  
Do it with me  
(Come on, come on)  
Yeah(Come on, come on)  
(Come on, come on)  
(Come on, come on)  
(Come on, come on)  
(Come on, come on)
