

Clouds

Chaka Khan

Clouds
Different shapes and sizes
Hiding the horizon
Clouds
In the distance
Coming to change my plans
All my dreams will melt like sand
Clouds
The moment that you say good-bye
They're gonna rush right to the sky
Whoa...
Baby, baby, please don't go
It's gonna rain
It's gonna rain
It's gonna rain down tears
Of heartaches and fears
It's gonna rain
It's gonna rain
I know for sure
'Cause you don't reach for me no more
It's gonna rain
It's gonna rain
There in the distance
Is that number one pain
Clouds
Thunder is the warning
So dark and so alarming
Clouds
Go away, go away
Go, don't take away my sunny days
Clouds
Leave me be
Getting so dark out
I just can't see
