

History

Megan McKenna

I marked the day, marked out the day that we met
 Couldn't let myself forget
 You had it all, all the things i look for
 Oh, i was sure that my future lay with you
 Still see you round, deju vu
 Now i plan my days without you
 Oh, i swear
I swear to god you were my all, my greatest fall
 I tried to be all that you need
 I guess to you i guess to me
 We're done for good, we're history
 I close my eyes, picture your face
 But to you
 I'm history...
So what am i, what am i suppose to do
 Just forget about you
 Feel 16, feeling our break all over
 For the very first time
How do you want me to, fake a smile when i see you
 Like I'm happy for you
 Oh i swear, i swear to god you were my all
 My hardest fall
 I try to be, all that you need
 I guess to you i guess to me
 We're done for good, we're history
 I close my eyes
Picture your face, still see you laying next to me
 I lost the biggest part of me
Now i just can't seem to let it go, and i know that you've moved on
 I won't give up hope but i suppose
 I guess to you i guess to me, we're done for good
 We're history
You used to mean the world to me, don't tell me you forgot
 Just keep me in your memories
I tried to be all that you need, i guess to you i guess to me
 We're done for good, we're history
 I close my eyes, picture your face
 Still see you laying next to me
 I lost the biggest part of me
Now i just can't seem to let it go, and i know that you've moved on
 I won't give up hope, but i suppose
 I guess to you, i guess to me

We're done for good
We're history
