

# Made of Light

Mikky Ekko

Here we are  
Children of the wild, yeah we bear the scars  
Reminders of the pain and the sacrifice  
We're the blood, sweat and tears that have paid the price  
And we paid the price But it's crazy how we wait so long  
How we wait so long to come together When you're livin' on this track  
And you have nothing left to give  
And the stars have lost their shine  
I will, I will burn for you  
When the darkness comes  
To try and steal your pride  
Don't lose hope, you tell them  
We are, we are made of light  
So here I am  
Take me if you want me  
Pull me through your fire, teach me how to learn  
Cause I'm so afraid, I don't know what it means to love  
So afraid what I give is never enough But it's crazy how we wait so long  
How we wait so long to come together When you're livin' on this track  
And you have nothing left to give  
And the stars have lost their shine  
I will, I will burn for you  
When the darkness comes  
To try and steal your pride  
Don't lose hope, you tell them  
We are, we are made of light  
I know you've been alone, alone so long  
I see you though, in fullness of  
Defeat and pain and broken lungs  
We wait until we're old enough  
We are, we are made of light When you're livin' on this track  
And you have nothing left to give  
And the stars have lost their shine  
I will, I will burn for you  
When the darkness comes  
To try and steal your pride  
Don't lose hope, you tell them  
We are, we are made of light When the darkness comes, we will be holding on  
Oh no we're not afraid, we learned to chase the Sun  
And where the river runs, we will be waiting for you  
And when the darkness comes, you will be waiting for me  
We waited so long, we had to work along

Never afraid of ever giving enough  
The wild children of, we will be holding on  
Oh no we're not afraid, we learned to chase the Sun  
And where the river runs, we will be waiting for you  
And when the darkness comes, you will be waiting for me  
When the darkness comes, we will be holding on...  
Here we are  
Children of the wild, yeah we bear the scars  
Reminders of the pain and the sacrifice  
We're the blood, sweat and tears that have paid the price  
And we paid the price But it's crazy how we wait so long  
How we wait so long to come together When you're livin' on this track  
And you have nothing left to give  
And the stars have lost their shine  
I will, I will burn for you  
When the darkness comes  
To try and steal your pride  
Don't lose hope, you tell them  
We are, we are made of light So here I am  
Take me if you want me  
Pull me through your fire, teach me how to learn  
Cause I'm so afraid, I don't know what it means to love  
So afraid what I give is never enough But it's crazy how we wait so long  
How we wait so long to come together When you're livin' on this track  
And you have nothing left to give  
And the stars have lost their shine

We are, we are made of light When you're livin' on this track  
And you have nothing left to give  
And the stars have lost their shine  
I will, I will burn for you  
When the darkness comes  
To try and steal your pride  
Don't lose hope, you tell them  
We are, we are made of light When the darkness comes, we will be holding on  
Oh no we're not afraid, we learned to chase the Sun  
And where the river runs, we will be waiting for you  
And when the darkness comes, you will be waiting for me  
We waited so long, we had to work along  
Never afraid of ever giving enough  
The wild children of, we will be holding on  
Oh no we're not afraid, we learned to chase the Sun

And where the river runs, we will be waiting for you  
And when the darkness comes, you will be waiting for me  
When the darkness comes, we will be holding on...
