

# iPod on Shuffle

Eric Bellinger

I got candles from your side to my side  
I got silk sheets for this for this red special, no lights  
I got roses to place in between your thighs  
I got liquor and I'ma lick her with this ice  
I got Jodeci, 112, H-Town, Maxwell  
R. Kell' and D'Angelo on my playlist tonight  
I must speed it up, slow it down, speed it up again, bend you over  
Then pull your hair and tell you to tell me it's all mine  
Look at your spine babe There's a meeting in my bedroom, meeting in my bedroom  
Baby girl I'm waitin' on you  
I've been waiting on you, so we can do what we do  
There's a meeting in my bedroom  
Baby it's a meeting in my bedroom  
I hope you wasn't tryna go to bed soon  
Baby it's a meeting in my bedroom  
In my bedroom, meeting in my bedroom  
iPod on shuffle with a duffle bag  
Throwin' money at you while I watch you throw it back  
iPod on shuffle with a duffle bag  
Throwin' money at you while I watch you throw it back Baby come and ride on me  
You know I'm from the west side  
All the other niggas want is to get a little bit of your TLC  
Shout out to Left Eye, shout out to Busta, shout out to Janet  
It's gon' be, it's gon' be your favorite song  
You might as well put this shit on repeat, put this shit on repeat There's a meeting in my  
bedroom, meeting in my bedroom  
Baby girl I'm waitin' on you  
I've been waiting on you, so we can do what we do  
There's a meeting in my bedroom  
Baby it's a meeting in my bedroom  
I hope you wasn't tryna go to bed soon  
Baby it's a meeting in my bedroom  
In my bedroom, meeting in my bedroom  
iPod on shuffle with a duffle bag  
Throwin' money at you while I watch you throw it back  
iPod on shuffle with that duffle bag  
Throwin' money at you while I watch you throw it back There's a meeting in my, there's a  
meeting in my bedroom baby  
There's a meeting in my, there's a meeting in my bedroom babe  
I've been on my grind all week  
I'm tryna get to you so you can grind on me  
I'm tryna press play on that TP2 with the ceiling fans all on top of me

Firmly on this bed of mine I set, ceiling fans with you on top of me
