

Everywhere we go we clean  
She want me to quit that lean  
Baby I can't quit that lean  
Put a ring around Codeine

I can feel it in the air, I can feel it in the air  
I can feel it in the air, I can feel it in the air  
I can feel it in the air, I can feel it in the air  
I can feel it in the air, I can feel it in the air  
I can feel it in the air, I can feel it in the air  
I can feel it in the air, I can feel it in the air  
I can feel it in the air, I can feel it in the air  
I can feel it in the air, I can feel it in the air  
I can feel it in the air, I can feel it in the air
