

# Let Me Love the Lonely

James Arthur

You laugh at all the jokes  
Even the ones you know  
Funny I'm doing that, too  
I love the crowded room  
The one string that's out of tune  
Trust me, I feel like I do  
Let me love the lonely out of you  
Let me love the pain you're going through  
I think I've saved myself by saving you  
Let me love the lonely out of you  
Lighthouse without the lights  
You smile without your eyes  
I know, coz I do that too  
Your own worst enemy  
You think that no one sees  
I do, coz I'm like that too  
Let me love the lonely out of you  
Let me love the pain you're going through  
I think I've saved myself by saving you  
Let me love the lonely out of you  
We can light a fire to moments  
Coz what is much to cold to see the love?  
Let me love the lonely out of you  
Let me love the pain you're going through  
I think I've saved myself by saving you  
Let me love the lonely out of you  
Let me love the lonely out of you  
Let me love the pain you're going through  
I think I've saved myself by saving you  
Let me love the lonely out of you
