

Killin' It

Cher Lloyd

Yeah, Yeah
Last night, what was going on?
Hold tight, only just begun
All out, load the party guns
We're the only ones
Ready go, gone Face down, wake up somewhere new
Spaced out, barely made it through
Every time I get into, whatever we do
Yeah I'm with you So if you had enough
Dust your shoulders off
And we can kick it till the nights get enough of us
And if you didn't know, I should tell you so
And now you know
Don't matter what they say
Cos we be killin it, killin it, killin it, all the way, way
Okay
Yeah we be killin it, killin it, killin it, all the way, way Rewind, where we started out
Play back, all that we forgot
You, me, all the shit we got
Love it at the top, ready get hot Wild hearts making our mistakes
Switched on but we're never fazed
Get down, we don't play it safe
Go out on a blaze, live for the day So have you had enough
Dust your shoulders off
And we can kick it till the nights get enough of us
And if you didn't know, I should tell you so
And now you know
Don't matter what they say
Cos we be killin it, killin it, killin it, all the way, way
Okay
Yeah we be killin it, killin it, killin it, all the way, way Shit, you wanna get with this
We up to brand new tricks, so boy get down to me
Shit, we on some chronic shit
You know that this is it, why don't you come and play? Shit, you wanna get with this
We up to brand new tricks, so boy get down to me
Shit, we own some chronic shit
You know that this is it, why don't you come and play? Don't matter what they say
Cos we be killin it, killin it, killin it, All the way, way
Okay
Yeah we be killin it, killin it, killin it, All the way, way
Don't matter what they say
We killin it, we killin it yeah yeah

Waa-aaa-ayyy, waa-aaa-ayyy
Okay, we killin it, we killin it yeah
Waa-aaa-ayyy, waa-aaa-ayyy yeah
