

Miss Me With That

Like

Miss me with that I'm on some supa supa fly fly Missy with that
I'm on some bird's eye Third eye vision with that
I take your spot right quick I ain't giving it back
You know the game You know the game Miss me with that I get busy with that
Toss them sickening raps Worse than them cigarette packs
Drank a fifth of that 'gnac Ay dawg my vision might black Called my chick on the jack
Yo scoop me up girl I'm smacked
Ayo coach put me in It's too close to the end
Hover over the clouds I just coast with the wind
You're on a poster again You are a poser my friend
It was a private event You wasn't supposed to get in
Couple ticks on the clock Guess I'm the closer again
Did this shit off the top No need to go for the pen
Just a chip off the block I gotta thank my old man I gotta thank my moms too I gotta thank all
of you
And for the haters Miss me with that I'm on some supa supa fly fly Missy with that
I'm on some bird's eye Third eye vision with that
I take your spot right quick I ain't giving it back
You know the game You know the game
Miss me with that You hella iffy with that
These niggas copy the style And they don't give the shit back
Then try to give me a dap I ain't tripping off that
I just switch up the raps I done been up six laps
I done been 'cross the maps
I done did all of that I done seen all the drugs
No I'm good off the crack No I'm good off the xans No I'm chill off the perc
But my homie do slang And he still got that work
When I'm alone in my room Sometimes I stare at the wall
And in the back of my mind I don't be caring at all
This shit ain't really that deep Just wanna share it with y'all
You carry hate in your heart That's so embarrassing dawg But quick to tell 'em Miss me with
that I'm on some supa supa fly fly Missy with that
I'm on some bird's eye Third eye vision with that
I take your spot right quick I ain't giving it back
You know the game You know the game
