Get That Man a Beer

Riley Green

Well I heard they got married, bought a little place
He worked nights, and she worked days
And they had two mean kids
His old dog and her wondering out
Heard she's up to her old tricks again
She did what she did to me to him
And the whole town knew it
I guess I dodged a bulletSo if you're ever at a dive down in Catersville, Georgia
There's a dude with a bulldogs tattoo in the corner of the
With a scar on his left eye from a mean right hook of mine
He got my girl and a few good licks in
It broke my heart but that was back then
And I figured out later, he did me a favor
So if you get that chance won't you get that man a beer
Well I bet he's sitting in the same ole stool that I broke in
When she broke me in two, and looking back now I reckon I owe him a roundSo if you're ever at a dive down in Catersville, Georgia
There's a dude with a bulldogs tattoo in the corner of the
With a scar on his left eye from a mean right hook of mine
He got my girl and a few good licks in
It broke my heart but that was back then
And I figured out later, he mighta did me a favor
So if you get that chance won't you get that man a beer
So if you're ever at a dive down in Catersville, Georgia
There's a dude with a bulldogs tattoo in the corner of the
With a scar on his left eye from a mean right hook of mine
He got my girl and a few good licks in
It broke my heart but that was back then
And I figured out later, he probably did me a favor
So if you get that chance won't you get that man a beerSomebody get that man a beer
