

Didn't I

Kelly Clarkson

Remember, not long ago
You called me hysterical
I finally figured us out
My fire was hot enough
To burn on for the both of us
Your water keeps putting us out And I should be steam
The way you love to rain over me
Then turn around and call me your queen
Too blind to see, the way it strings
The pain it brings
Didn't I give you everything?
I gave you everything, baby (baby)
Baby, didn't I?
Didn't I give you everything?
You got the best of me, baby (baby)
Baby, didn't I
Hear you crying on my shoulder?
Beg and hold me 'til it's over?
When you're lonely, just remember
I gave you everything
D-d-didn't I? I'm over this tug of war
I've told you so many times before
Now I'm finally letting go of the rope, yeah
This game is too ugly, boy
And these hands are tired from keeping you up
And my heart hurts from holding out hope
And I can't stay clean
With all the dirt you're throwing at me
Then turn around and call me your queen
Too blind to see, the way it stings
Oh, the pain it brings Didn't I give you everything?
I gave you everything, baby (baby)
Baby, didn't I?
Didn't I give you everything?
You got the best of me, baby (baby)
Baby, didn't I
Hear you crying on my shoulder?
Beg and hold me 'til it's over?
When you're lonely, just remember
I gave you everything
D-d-didn't I? Oh, yeah (Baby)
Didn't I, didn't I?

Didn't I give you everything? (Baby)
Didn't I, didn't I, didn't I? Didn't I give you everything?
I gave you everything, baby (baby)
Baby, didn't I?
Didn't I give you everything?
You got the best of me, baby (baby)
Baby, didn't I
Hear you crying on my shoulder?
Beg and hold me 'til it's over?
When you're lonely, just remember
I gave you everything
D-d-didn't I? Didn't I, didn't I?
Didn't I give you everything, baby?
Didn't I, didn't I?
Didn't I give you everything, baby?
Didn't I, didn't I?
Didn't I give you everything, baby?
Didn't I, didn't I?
Didn't I give you everything?
