

Stain of Mind

Slayer

Imagine Humanity's decline
Step inside my stain of mind
 Infesting superiority
 Infectious immorality oh yea
Come worship the place no truths are told
 Praise the land where sins are sold
No passion no love your faith evades
 Never see yourself again that way
 Death becomes your bride
 Lifelessness invades your eyes
 in fire baptized
 All pain sifts through my soul
 You'll never feel greater misery
 Master of my enemy
 Let the purest stain of mind
 Wash the virtue from your eyes
 As one the collective unifies
 Emanate a faithless shine
 Forever creation has conceived
Birth of destruction spreads its wings oh yea
 Chaotic rebirth a new domain
Re-live the sight the sound the pain
 Erotic the taste of agony
 Adorn the scars of inhumanity
 This is what you see
 Deep inside of me
 Agony is life
 Lechery is life
 Godlessness is life
 Purgatory magnified
 In fire baptized
 All pain sifts through my soul
 You'll never feel greater misery
 Master of my enemy
 Let the purest satin of mind
 Wash the virtue from your eyes
 Enticing malevolence allures
 Bastardize the clean and pure
 Salvation forever crucified
I choose the other side oh yea
 Entire, complete serenity
 Injected intravenously

Transgression euphoric bliss divine
Initiate a timeless stain of mind
Blood will sterilize
In fire I baptized
All pain sifts through my soul
You'll never feel greater misery
Master of my enemy
Let the purest stain of mind
Wash the virtue from your eyes
